ENVIRONMENT AND PUBLIC WORKS  
CHAIR:  
SUBCOMMITTEE ON CLEAN AIR, CLIMATE, AND  
NUCLEAR SAFETY  
HEALTH, EDUCATION, LABOR, AND PENSIONS  
CHAIR:  
SUBCOMMITTEE ON PRIMARY HEALTH AND  
RETIREMENT SECURITY  
COMMERCE, SCIENCE, AND TRANSPORTATION  
SMALL BUSINESS AND ENTREPRENEURSHIP  
CHAIR:  
U.S. SENATE CLIMATE CHANGE TASK FORCE

The Honorable Patty Murray  
Chair  
Senate Committee on Appropriations  
Washington, D.C. 20510

The Honorable Susan Collins  
Vice Chair  
Senate Committee on Appropriations  
Washington, D.C. 20510

The Honorable Dianne Feinstein  
Chair  
Energy and Water Development  
Subcommittee  
Washington, D.C. 20510

The Honorable John Kennedy  
Ranking Member  
Energy and Water Development  
Subcommittee  
Washington, D.C. 20510

Dear Chair Murray, Vice Chair Collins, Chair Feinstein and Ranking Member Kennedy:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2024 Energy and Water Development appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. Thank you.

Sincerely,

Edward J. Markey

**Markey, Edward(D-MA) Energy and Water Development  
Congressionally Directed Spending Requests**

| <b>Recipient Name</b>              | <b>Project Purpose</b>   | <b>Project Location</b>      | <b>Amount Requested (\$000)</b> |
|------------------------------------|--|------------------------------|---------------------------------|
| Endicott College                   | Endicott College is requesting \$1 million in Community Project funding to assist with seawall reconstruction and stabilization in three locations along the shoreline of Endicott's campus in Salem Sound, from 375 to 413 Hale Street in Beverly, which were severely damaged by Nor'Easters.            | Beverly MA                   | \$1,000                         |
| Army Corps of Engineers (Civil)    | Boston's people and neighborhoods - as well as the transportation and economic hubs of New England - are at risk from coastal flooding along its 47 miles of coastline. The City of Boston has partnered with the U.S. Army Corps of Engineers on a Coastal Storm Risk Management Feasibility Study.       | Boston MA                    | \$500                           |
| Dana-Farber Cancer Institute, Inc. | Ultra-Low Temperature Freezer Replacement for Energy and Emissions Reduction project entails an expedited effort to remove some of the largest energy-consuming pieces of equipment in the predominant research environment.   | Boston MA                    | \$1,625                         |
| Army Corps of Engineers (Civil)    | The project consists of replacement of the existing Bourne and Sagamore bridges, built in 1930s, with two new bridges ("replacement bridges"), built to modern Federal Highway Administration standards, and associated work, including utility relocations and real estate acquisition.                   | Bourne and Sagamore MA       | \$30,000                        |
| Army Corps of Engineers (Civil)    | Surveys associated with maintenance dredging and sampling and testing, environmental coordination, NEPA document.  | Cohasset MA                  | \$450                           |
| Army Corps of Engineers (Civil)    | Maintenance Dredging   | Duxbury and Marshfield MA    | \$1,000                         |
| Army Corps of Engineers (Civil)    | Maintenance Dredging of Edgartown Harbor   | Edgartown MA                 | \$250                           |
| Army Corps of Engineers (Civil)    | Complete Sampling and Testing leading to environmental coordination and permitting supporting maintenance dredging.  | Ipswich MA                   | \$850                           |
| City of Melrose                    | The City of Melrose requests funds to design a new Net Zero Police Station to meet the critical public safety needs of the community and support the City's goal to be energy net-zero by 2050. The existing Melrose Police Station is functionally obsolete and in dire need of replacement.              | Melrose MA                   | \$3,000                         |
| Army Corps of Engineers (Civil)    | Funding is required to repair damaged areas of the steel sector gates at the Project. Steel repairs will include replacement of a portion of the skin plate and supporting structural members at the leading edge of both gates and repairs to the fender system of each gate.                             | New Bedford MA               | \$3,500                         |
| Army Corps of Engineers (Civil)    | Funding would be used to complete the DMMP and complete design   | New Bedford and Fairhaven MA | \$2,000                         |
| Martha's Vineyard Commission       | This project is being led by USACE, to assist the Martha's Vineyard Commission and the Town of Nantucket with an evaluation of carrying capacity thresholds (including resource management) and supply chains for understanding the impacts of development on anthropogenic stressors, and infrastructure. | Oak Bluffs MA                | \$1,862                         |
| Army Corps of Engineers (Civil)    | Initiate feasibility study to Evaluate options to reduce the risk of coastal and riverine flooding in the Saugus River watershed in Saugus, Lynn, Malden, Everett, and Revere, Massachusetts.  | Saugus MA                    | \$500                           |
| Army Corps of Engineers (Civil)    | The Cedar Point Seawall is in poor condition and in danger of failing in a coastal storm. The Town has been working with the ACE to design a replacement seawall. The new wall would significantly reduce flooding and damage to property in the subject area.   | Scituate MA                  | \$10,000                        |

|                                   |  |                 |         |
|-----------------------------------|--|-----------------|---------|
| Trustees of Mount Holyoke College | Mount Holyoke College intends to replace its gas heating and cooling infrastructure with a campus-wide, renewable geothermal exchange project beginning in spring 2023 on its 800-acre campus. This project will advance our pledge to become a carbon-neutral campus by 2037, our bicentennial. | South Hadley MA | \$2,000 |
| Worcester Housing Authority       | This request from the Worcester Housing Authority (WHA) will purchase two electric vehicle (EV) chargers and solar panels for its administrative offices at 630 Plantation Street as well two additional EV chargers for its maintenance and purchasing headquarters at 660 Lincoln Street.      | Worcester MA    | \$2,000 |
