

The State of Vermont has chosen not to seek state delegated authority (Waiver Status) from the USEPA for implementation of the Asbestos Hazard Emergency Response Act (AHERA). The jurisdiction and authority for implementation compliance and enforcement is with USEPA Region I Office of Enforcement and Compliance Assistance (OECA). Since 2001, USEPA has established grant cooperative agreements with the Vermont Department of Health which established a process for the USEPA to credential Health Department compliance inspectors to conduct compliance inspections in Vermont schools that are subject to the requirements of AHERA. On an annual basis, 15 to 25 schools within the Local Education Agencies (LEA is defined as Supervisory Union, School District or Independent Non-Profit School) are selected for AHERA compliance inspections using an USEPA neutral selection scheme (NSS) or a for cause selection criteria, such as tips/complaints or state notified asbestos abatement permit activity. Under the grant cooperative agreement, the AHERA compliance inspection reports are submitted to USEPA Region I OECA for compliance action follow up.

Scope of Asbestos Hazards in Schools

1. How many local education agencies in your state are subject to AHERA? Please provide a list of the local education agencies subject to AHERA and identify the number of school buildings in each.

There are 197 LEAs which includes 59 supervisory unions and 138 independent non-profit schools listed with the Vermont Agency of Education.

See attachment A (the number of buildings on each school campus has never been provided to the Department).

2. How many local education agencies in your state have conducted an initial asbestos inspection of all buildings owned, leased, or used as school buildings as required by AHERA?

There are 123 LEAs that have conducted initial asbestos inspections of buildings owned, leased or used as school buildings as required by AHERA (The source of this data is the 1987-1989 Hal Kimbrell inspection reports provided to the Department).

3. How many local education agencies in your state have been identified as having school buildings that harbor asbestos-containing materials? Please provide a list of those local education agencies and provide the number of school buildings in each that have been identified as harboring asbestos-containing building materials.

There are 123 LEAs that have had initial inspections that identified asbestos containing materials. Please see Attachment B for a listing of LEAs. The number of school buildings in each LEA is not known.

Awareness and Monitoring of Asbestos Hazards in Schools

4. How frequently do local education agencies report AHERA compliance information to the State?

Other than the initial 1987-1989 Hal Kimbrell inspections and reports that were provided to the Department, the LEAs do not routinely report AHERA compliance information to the Department.

5. How many local education agencies in your state have prepared and submitted asbestos operation and management (O&M) plans as required by AHERA regulations (40 C.F.R. §763.91)?

There have been 106 LEAs that submitted asbestos operation and management (O&M) plans as required by AHERA regulations (40 C.F.R. §763.91).

6. How many local education agencies in your state have prepared and submitted asbestos management plans as required by AHERA regulations (40 C.F.R. §763.93)?

There have been 123 LEAs that submitted asbestos management plans as required by AHERA regulations (40 C.F.R. §763.93).

7. How many local education agencies in your state have conducted the periodic inspections as required by AHERA regulations? Please provide a list of those local education agencies and the number of school buildings in each for which period inspections have not been conducted.

16 LEAs have conducted periodic surveillance inspections, see Attachment C

8. How often does your State conduct inspections and/or audits of each local education agency for their compliance with AHERA? Please provide the dates of state inspections and/or audits since 2010.

Under grant agreement with USEPA Region I, Vermont Department of Health conducts 15 to 25 compliance inspections per year.

See Attachment D for a list of compliance inspections performed since 2010.

9. For each of the past five (5) years, what were the annual costs of your State's implementation and enforcement of AHERA?

A total of \$35,200 as shown below:

Grant Year	State Cost Match \$
2010	7,040
2011	7,040
2012	7,040
2013	7,040
2014	7,040

10. Have any local education agencies in your state been issued penalties for noncompliance with AHERA? If so, please describe these occasions.

No.

Vermont conducts compliance inspections on behalf of USEPA and provides the compliance inspection reports to USEPA. Only USEPA Region 1 OECA has the authority to issue notices of non-compliance and any associated penalties for non-compliance.

11. Has your State ever taken an emergency action against any local education agencies for noncompliance with AHERA? If so, please describe these occasions and their outcomes.

No.

12. How many complaints or informant tips about alleged AHERA violations has your state received from parents, teachers, students, janitorial staff, etc. each year since AHERA became law in 1986?

On average, the Department receives two - three tips/complaints per year.

Asbestos Abatement Status

13. Of the local education agencies known to have or have had buildings with asbestos-containing material, how many local education agencies have completed full abatement of the asbestos hazards? By "full abatement" we mean full removal of the asbestos hazards and not management in place through encapsulation, enclosure, or other means.

- a. Please provide a list of the local education agencies that have completed full abatement and the date upon which the abatement was completed.

None

- b. Please provide a list of those local education agencies that have *not* fully abated known asbestos hazards and the number of school buildings in each that continue to harbor asbestos-containing materials.

See Attachment A for a list of LEAs that have not fully abated known asbestos hazards.

Asbestos Accreditation, Training, and Licensure

14. Did your State adopt the EPA's Model Accreditation Plan (*i.e.*, the EPA's template establishing definitions, training, examinations, continuing education, qualifications, recordkeeping, de-accreditation, reciprocity, and electronic reporting as set forth in 40 C.F.R. Pt. 763, Sub Pt. E, App. C) to ensure contractors, inspectors, and other professionals are adequately trained to handle asbestos-containing materials safely? If not, please describe the differences of your State's accreditation plan as compared with EPA's.

Vermont incorporated USEPA's Model Accreditation Plan in its state asbestos regulations for certification, training, licensing, abatement related activities which is Vermont Regulations for Asbestos Control (VRAC), (V.S.A. Title 18, Chapter 26), but Vermont is not an EPA delegated authorized state for AHERA.

15. How does your State verify that professionals conducting asbestos-related work (such as building inspections, abatement projects, etc.) are properly accredited?

All contractor individuals are checked against VRAC and must hold a current Vermont asbestos state license when conducting asbestos related work.

16. In addition to AHERA requirements for accreditation of contractors and laboratories, does your State require any professionals to be licensed to perform asbestos-related work? If so, please describe the requirements for licensure, penalties for doing asbestos-related work without a license, and disciplinary procedures for not performing asbestos-related work in conformity with professional standards in your State. Provide appropriate citations to State statutes when applicable.

Yes.

Legislative Statute - V.S.A. Title 18, Chapter 3 and 26, and VRAC as authorized by V.S.A. Title 18, Chapter 26.

Asbestos Notifications to Parents, Teachers, and Staff

17. Does your State have a template notification letter for use by local education agencies to provide parents, teachers, and staff annual notifications about asbestos management plans? If so, please provide a copy.

Vermont uses the template provided by USEPA.

18. How many local education agencies have provided annual notification letters to parents, teachers, and staff each year since 2010?

105

- a. Please provide a list of the local education agencies that have provided annual notification letters to parents, teachers, and staff each year since 2010.

See Attachment D.

- b. Please provide a list of the local education agencies that have *not* provided annual notification letters to parents, teachers, and staff each year since 2010.

Some LEAs may have provided the notification, but the Department can only verify by conducting a compliance inspection.

Reporting to EPA

- 19. What information related to AHERA and asbestos hazards in schools does your State report to the EPA? How frequently does this reporting occur?

Vermont reports compliance inspections to the USEPA within 30 days of completing the inspection. Technical assistance and outreach activities are reported quarterly, and a grant report is provided to the USEPA annually.

- 20. Does your State receive grant funding to assist in the enforcement of AHERA (*e.g.*, funding to conduct inspections)? If so, please describe the funding amount, funding period, and reporting requirements.

The following table lists the USEPA AHERA grant funds for compliance inspections, including the grant period, USEPA grant amount and the Vermont State match amount.

Grant Period Start	Grant Period End	USEPA AMT \$	State Match AMT \$	Total AMT \$	Reporting Requirements
2/1/2000	7/31/2003	87,500	29,166	119,512	Annual
4/1/2004	3/31/2006	89,634	29,878	119,512	Annual
10/1/2006	9/31/2008	50,000	0	50,000	Annual
10/1/2008	9/30/2010	50,344	16,781	67,125	Annual
10/1/2010	9/30/2012	49,218	17,449	66,667	Annual
7/1/2013	9/20/2015	70,975	17,744	88,719	Annual
