Nashville, Tennessee 37243

Response to the

United States Senate

Committee on Environment and Public Works

On

AHERA Compliance in Tennessee

Date: April 15, 2015
Prepared by: Adrienne White – Program Manager
Toxic Substances Program

EXECUTIVE SUMMARY

The data and information provided in this report was obtained from documentation on file as of April 1, 2015 with the Tennessee Department of Education and the Tennessee Department of Environment and Conservation.

The Tennessee Department of Education (TDOE) is the agency designated by the Governor of Tennessee to provide oversight of local education agencies (LEAs) who are required to submit asbestos management plans and implement the requirements of those plans as outlined in 40 CFR 763 Subpart E. During May 2010, Tennessee experienced a 1000 year storm, which resulted in extensive flooding. TDOE was one of many organizations whose offices incurred extensive damage and the loss of vital records and documentation. Due to the flood of 2010, TDOE has been rebuilding the AHERA database.

The Tennessee Department of Environment and Conservation (TDEC) (Division of Solid Waste Management Toxic Substances Program) is the state agency that on behalf of EPA and under a cooperative grant conducts inspections of all Tennessee LEAs to monitor their compliance with the 40 CFR 763 Subpart E AHERA requirements. The compliance monitoring inspections conducted by TDEC identify areas of non-compliance, potential violations and corrective action, which are detailed in reports submitted to EPA for further enforcement. Under the EPA AHERA grant, TDEC also conducts on-site inspections in schools where asbestos abatement activities occur and investigates tips and complaints. TDEC has been conducting AHERA compliance monitoring inspections on behalf of EPA since October 2003.

Tennessee also has a model asbestos accreditation program (MAAP), which began in July 1, 2009 and is administered by the Division of Solid Waste Management Toxic Substances Program. The program has statutory and regulatory authority to accredit persons and firms who perform asbestos activities in schools or public and commercial buildings. MAAP also accredits training providers who offer asbestos training courses to individuals who seek accreditation in Tennessee. Inspections of asbestos accredited training courses are conducted to ensure that the approved course curriculums are adhered to. Lastly, MAAP has authority to initiate enforcement when non-compliance is identified.

The following sections contain Tennessee's response to the 20 questions received on March 31, 2015 from the United States Senate Committee on Environment and Public Works. Presented first is the original question posed to Governor Haslam, which then is immediately followed by Tennessee's response under the header "*TN Response*". The attached Appendices contain the LEA and school data requested in a given question and the specific Appendix is denoted in the response.

AHERA Compliance in Tennessee

Scope of Asbestos Hazards in Schools

- 1. How many local education agencies in your state are subject to AHERA? Please provide a list of the local education agencies subject to AHERA and identify the number of school buildings in each.**

TN Response: For the state fiscal year ending June 30, 2014, there were 841 local education agencies (LEAs) that were subject to complying with the requirements outlined by AHERA. The total LEAs account for 2461 schools.¹ Appendix 1 shows a listing of the LEAs and the number of active public and private schools in each.

- 2. How many local education agencies in your state have conducted an initial asbestos inspection of all buildings owned, leased, or used as school buildings as required by AHERA?**

TN Response: Much of the AHERA data and documentation on file at TDOE was destroyed by the 2010 Nashville Flood. TDOE is in the process of rebuilding the AHERA database to recapture LEA documentation. The current data shows that 120 LEAs have reaffirmed that the initial asbestos inspections were conducted.

TDEC has staff that conduct enforcement compliance monitoring inspections, on behalf of EPA, to verify that LEAs have completed an initial asbestos inspection, re-inspections of all their buildings and that the corresponding documentation is maintained on file at the LEA. TDEC has been conducting these AHERA inspections since October 2003².

- 3. How many local education agencies in your state have been identified as having school buildings that harbor asbestos-containing materials? Please provide a list of those local education agencies and provide the number of school buildings in each that have been identified as harboring asbestos-containing building materials.**

TN Response: The TDOE AHERA table in Appendix 2 shows that 809 LEAs may have schools with asbestos because a declaration of 'ACBM Free' has not been documented for these schools. These LEAs account for 1849 schools that potentially have asbestos containing building materials (ACBM).³

Awareness and Monitoring of Asbestos Hazards in Schools

- 4. How frequently do local education agencies report AHERA compliance information to the State?**

TN Response: Tennessee LEAs report AHERA compliance information to the Tennessee Department of Education (TDOE) according to the EPA requirements outlined in 40 CFR 763 Subpart E. The AHERA information reported for the schools includes the annual inspection, 6 month surveillance and 3 year re-inspection reports.

¹ The detailed breakdown of this number is available in Appendix 3.

² Since that time and up through March 2015, TDEC has inspected 222 LEAs, several more than once, and 569 schools of the total 2461 schools located in Tennessee. During this same time period, TDEC identified 54 LEAs that were not in compliance with the AHERA requirements for conducting the initial inspection and re-inspection of asbestos in their school buildings. This information appears in Appendix 3 and is also in a database if you would like to follow up with more specific questions.

³ACBM means surfacing Asbestos-containing material (ACM), thermal system insulation ACM, or miscellaneous ACM that is found in or on interior structural members or other parts of a school building. ACM refers to any material or product that contains more than one percent asbestos. 40 C.F.R. §763.83.

Many of the AHERA management plan records maintained at the TDOE were lost during the 2010 Nashville Flood. TDOE has been rebuilding the AHERA database to recapture those records. Currently, 120 LEAs have reported that they have the required AHERA documentation on file. Appendix 2 lists the LEA AHERA management plan data that has been recaptured to date.

5. How many local education agencies in your state have prepared and submitted asbestos operation and management (O&M) plans as required by AHERA regulations (40CFR763.91)?

TN Response: The O&M plans for 120 LEAs have been verified to date. TDOE continues to recapture Tennessee LEA compliance data for the AHERA database that was previously destroyed by the 2010 flood.

6. How many local education agencies in your state have prepared and submitted asbestos management plans as required by AHERA regulations (40CFR763.93)?

TN Response: Many of the AHERA management plan records maintained at the TDOE were lost during the 2010 Nashville Flood. TDOE has been rebuilding the AHERA database to recapture those records. Currently, 120 LEAs have reported that they have the required AHERA documentation on file. Appendix 2 lists the LEA AHERA management plan data that has been recaptured to date.

7. How many local education agencies in your state have conducted the periodic inspections as required by AHERA regulations? Please provide a list of those local education agencies and the number of school buildings in each for which periodic inspections have not been conducted.

TN Response: Since the time that TDOE's AHERA records were destroyed during the 2010 flood, only 120 LEAs have reaffirmed that they have conducted the periodic inspections as required by AHERA regulations. Appendix 2 shows the list of LEAs and the documentation that needs to be recaptured for the Tennessee database.

In addition, Appendix 3 shows the number of periodic inspections since 2003. TDEC has inspected 222 LEAs and 569 schools of the total 2461 schools. Since 2003, the AHERA enforcement compliance inspections conducted by TDEC identified 54 LEAs that were not in compliance with the periodic inspections as required by AHERA. Appendix 3 shows a list of those LEAs.

8. How often does your State conduct inspections and/or audits of each local education agency for their compliance with AHERA? Please provide the dates of state inspections and/or audits since 2010.

TN Response: TDEC is funded by EPA to conduct enforcement compliance inspections of schools to determine their compliance with the AHERA requirements. The EPA grant funding received requires a 25% state match. The program conducting the TDEC AHERA inspections uses MAAP income fees to fund the 25% match. The combined AHERA grant budget provides only enough funds to support one full-time inspector to inspect ten to sixteen LEAs and 30 to 48 schools each year across Tennessee. LEAs are prioritized for AHERA compliance monitoring inspections based on the following criteria:

- a. LEAs that are located in demographic areas with an EPA Environmental Justice ranking of four or greater that have never been inspected for AHERA compliance.
- b. LEAs that have never been inspected for AHERA compliance.
- c. Tips and complaints.

Since 2010, TDEC completed AHERA compliance inspections at 76 LEAs and 161 schools. During this same period, TDEC inspected 32 asbestos abatements at LEAs and identified 42 areas of non-compliance. Tables summarizing this data are located in Appendix 3.

9. For each of the past five (5) years, what were the annual costs of your State's implementation and enforcement of AHERA?

TN Response: The following table shows the approved funding for TDEC to conduct AHERA compliance monitoring inspections, to investigate tips/complaints of LEAs and for the Tennessee Department of Education's oversight of LEAs.

| State of Tennessee Annual Costs for AHERA Implementation and Enforcement from 10/1/2010 to 6/30/2015 | | | | |
|---|------------------------------|---|--|----------------------|
| Fiscal Year | TN Dept. of Education | EPA Federal Funding to TDEC FOR AHERA Compliance/Tips/Complaints/Enforcement | TDEC Toxic Substances Program Grant Match | Total |
| 2010-2011 | \$ 23,580.00 | \$ 81,745.00 | \$ 70,630.50 | \$ 175,955.50 |
| 2011-2013 | \$ 23,580.00 | \$ 165,125.00 | \$ 156,050.00 | \$ 344,755.00 |
| 2013-2014 | \$ 23,580.00 | \$ 78,425.00 | \$ 26,142.00 | \$ 128,147.00 |
| 2014-2015 | \$ 23,580.00 | \$ 67,000.00 | \$ 22,336.00 | \$ 112,916.00 |
| GRAND TOTALS | \$ 94,320.00 | \$ 392,295.00 | \$ 275,158.50 | \$ 761,773.50 |

10. Have any local education agencies in your state been issued penalties for non-compliance with AHERA? If so, please describe these occasions.

TN Response: Penalties to LEAs for non-compliance would be levied by EPA Region IV located in Atlanta, Georgia. TDEC identifies the areas of non-compliance and submits a detailed report to EPA Region IV for subsequent enforcement. EPA Region IV will have all data relative to penalties levied against Tennessee LEAs for non-compliance with AHERA requirements.

11. Has your State ever taken an emergency action against any local education agencies for noncompliance with AHERA? If so, please describe these occasions and their outcomes.

TN Response: No, the state has not taken emergency action against any LEA for noncompliance with AHERA. TDEC identifies the areas of non-compliance and submits a detailed report to EPA Region IV.

12. How many complaints or informant tips about alleged AHERA violations has your state received from parents, teachers, students, janitorial staff, etc. each year since AHERA became law in 1986?

TN Response: There is no data available to determine the number of tips and complaints received since 1986. Many of the AHERA documentation maintained at the TDOE were lost during the 2010 Nashville Flood.

TDEC receives complaints and informant tips through its phone number and email via ask.TDEC@TN.GOV and the proper division follows up. Also, EPA Region IV forwards tips and complaints they receive directly and/or those received through the EPA web-site to TDEC. TDEC investigates the tips and complaints and tabulates them as a compliance monitoring inspection.

Asbestos Abatement Status

13. Of the local education agencies known to have or have had buildings with asbestos-containing material, how many local education agencies have completed full abatement of the asbestos hazards? By “full abatement”

we mean full removal of the asbestos hazards and not management in place through encapsulation, enclosure, or other means.

- a. Please provide a list of the local education agencies that have completed full abatement and the date upon which the abatement was completed.
- b. Please provide a list of those local education agencies that have not fully abated known asbestos hazards and the number of school buildings in each that continue to harbor asbestos-containing materials.

TN Response: Much of the AHERA data and documentation on file at TDOE was destroyed by the 2010 Nashville Flood. TDOE is in the process of rebuilding the AHERA database to recapture LEA documentation. Data currently recaptured shows that 32 LEAs have 167 schools that are ‘ACBM-free’. The remaining 809 LEAs that represent 1849 schools are assumed to contain ACBM until documentation to the contrary has been entered into the new rebuilt AHERA database.

Appendix 3 contains a table listing the schools that TDEC inspected when ACBM removal was occurring. None of these projects consisted of ‘full abatement’.

Asbestos Accreditation, Training, and Licensure

14. Did your State adopt the EPA’s Model Accreditation Plan (i.e., the EPA’s template establishing definitions, training, examinations, continuing education, qualifications, recordkeeping, deaccreditation, reciprocity, and electronic reporting as set forth in 40 CFR Pt. 763, SubPt E, App. C) to ensure contractors, inspectors and other professionals are adequately trained to handle asbestos-containing materials safely? If not, please describe the differences of your State’s accreditation plan as compared with EPA’s.

TN Response: Tennessee’s asbestos accreditation program became effective July 1, 2009. It follows EPA’s Model Accreditation Plan outlined in 40 CFR Pt. 763, SubPt E, and App. C. The program has statutory and regulatory authority to accredit persons and firms who perform asbestos activities in schools, in public buildings, and commercial buildings and accredits training providers who offer asbestos training courses. Inspections of asbestos accredited training courses are conducted to ensure that the approved course curriculums are adhered to. MAAP also has authority to revoke or suspend asbestos accreditations for violating provisions of the regulations. The statutory requirements are outlined in Tennessee Code Annotated (T.C.A.) §§ 62-41-101 et seq. *Tennessee Asbestos Contractor Accreditation and Regulation Act*. The regulatory requirements are outlined in ‘*Rules of Department of Environment and Conservation, Chapter 1200-01-20 Asbestos Accreditation Requirements.*’ Tennessee is in the process of revising MAAP to enhance enforcement authority for non-accreditation violations and refine the administrative procedures for deaccreditation.

15. How does your State verify that professionals conducting asbestos –related work (such as building inspections, abatement projects, etc.) are properly accredited?

TN Response: TDEC’s asbestos accreditation program is responsible for ensuring that professionals conducting asbestos-related work are accredited by the state of Tennessee. First, all individuals that are accredited to conduct asbestos work are issued a unique picture identification card, which the Rule requires to be on their person at any work-site. Second, TDEC maintains an active real-time database of entities that are accredited by Tennessee. This database is easily accessible by the public that may hire individuals to conduct asbestos activities. All accredited firms are required to affirm, on their application, that they will only use individuals who are Tennessee accredited to conduct asbestos work. Lastly, TDEC’s Toxic Substance Program conducts on-site inspections where active asbestos removal projects are occurring to ensure that all workers are currently accredited. Since asbestos removal projects are regulated by the Clean Air Act (CAA90) National Emission Standards of Hazardous Air Pollutants (NESHAPs), MAAP inspections conducted at abatement sites rely upon receiving project notifications through the various Air Pollution Boards located across the state. The ability of MAAP to require project notification would strengthen its ability to verify that asbestos abatement work is only conducted by Tennessee accredited professionals.

16. In addition to AHERA requirements for accreditation of contractors and laboratories, does your State require any professionals to be licensed to perform asbestos-related work? If so, please describe the requirements for licensure, penalties for doing asbestos-related work without a license, and disciplinary procedures for not performing asbestos-related work in conformity with professional standards in your State. Provide appropriate citations to State statutes when applicable.

TN Response: The State of Tennessee does require professionals to be licensed to perform asbestos abatement based on the monetary value of the project as described below.⁴ The requirements for licensure and assessment of civil penalties for violations of statutes, rules or orders enforceable by the Board are detailed in Rules of the Tennessee Board for Licensing Contractors, *Rule Chapter 0680-01- Licensing*.⁵ The Department of Commerce and Insurance, Board for Licensing Contractors, is the designated agency that regulates the following state licensed "professional contractors":

Contractors; Home Improvement Contractors; Limited Licensed Electricians (LLE); Limited Licensed Plumbers (LLP); and Pre-Licensed Exam Course Providers.

The definition of contractor is found in the Contractor License Laws at T.C.A. § 62-6-101, et. al. and covers a very broad area of all types of contracting by primes, subcontractors, and construction managers (see Contractor Classifications Outline) which includes construction, installation, movement, repair, etc. for buildings, property, highways, equipment, etc. All contractor licenses are assigned a monetary limit and also a classification, such as: Residential Building (BC-A), Commercial Building (BC-B or BC), Electrical (CE); Plumbing (CMC-A) and several specialties such as S-Solar Panel Installation and S-Telecommunications. Asbestos abatement is a specialty sub-license classification that is designated S-A and requires environmental certifications.

A contractor's license is required for prime (general) contractors, subcontractors and construction managers. A qualifier (Qualifying Agent) is the person who takes the exam(s) for the entity obtaining the license and they may be an owner or full time employee. Bonding is not required to obtain a contractor's license, but may be required for bidding or obtaining local government permits and inspections. A financial statement is required and must be prepared by a CPA (Review or Audit). The financial statement is utilized to determine the size of license in which a monetary limit may be assigned to the license. The license is obtained in the exact name of the entity providing the financial statement. Therefore, a license may be issued to a Sole Proprietor, Corporation, Partnership, or LLC. The license does not necessarily belong to the qualifying agent, unless they are also the owner. Reciprocal agreements are trade exam waivers, only, and exist with many bordering states.

The following monetary value of a project is the basis for the type of contractor's license that is required prior to contracting (bidding, offering to engage, or negotiating a price) for various types of projects \$25,000 or more when acting as one of the following:

- Prime (General) Contractor - Bidding or contracting directly with the "owner" of the project;
- Subcontractor – Contracting directly with the contractor (not to the owner) to perform projects when the total cost of that portion is *\$25,000 or more, for the following (*includes all materials, equipment, and labor*):
 - Electrical, Mechanical, Plumbing, HVAC, and **Roofing; and
 - Masonry when *\$100,000 and up;
- Construction Management when the value of the project is \$25,000 or more;
- Masonry subcontractors must be licensed as a contractor when the project is \$100,000 or more;
- And roofing subcontractors must be licensed as a contractor, effective January 1, 2014, in addition to performing work currently as a prime, for projects \$25,000 or more.

The Board of Licensing Contractors does not have the authority to award monetary damages, refund money, or force the contractor to make repairs and complete the project. In cases where work is not properly performed, the

⁴ Any person, firm or corporation that engages or offers to engage in contracting without a license as required by T.C.A. § 62-6-103 or who violates the terms and conditions of any license or renewal granted by the board commits a Class A misdemeanor, would be ineligible to be awarded the project, cannot participate in any rebidding of the project, may not receive a license for six (6) months, and also may be subject to civil penalties. Tenn. Code Ann. § 62-6-120. 2015.

⁵Rule Chapter 0680-01- Licensing available at <https://www.tn.gov/sos/rules/0680/0680-01.20130308.pdf>.

Board may assess discipline such as letters of warning/caution, citations, civil penalties, consent orders and, in some cases, they may revoke or suspend the license through an adversarial formal hearing process with an Administrative Judge, pursuant to the Uniform Administrative Procedures Act. Anyone seeking to recover monetary remedies for injuries should consult a private attorney, as the Board has no jurisdiction over these matters. Further, the Board cannot hold the issuance of a license renewal until the respondent is given due process through the Uniform Administrative Procedures by a formal hearing.

Asbestos Notifications to Parents, Teachers and Staff

17. Does your State have a template notification letter for use by local education agencies to provide parents, teachers, and staff annual notifications about asbestos management plans? If so, please provide a copy.

TN Response: TDOE does have notification instructions that each LEAs can use for the annual notification to parents, teachers and staff about the asbestos management plans. A copy of the notification instructions is in Appendix 4.

18. How many local education agencies have provided annual notification letters to parents, teachers, and staff each year since 2010?

- a. **Please provide a list of the local education agencies that have provided annual notification letters to parents, teachers, and staff each year since 2010.**
- b. **Please provide a list of the local education agencies that have not provided annual notification letters to parents, teachers, and staff each year since 2010.**

TN Response: Appendix 2 contains an AHERA database that lists all LEAs, their schools and the status of their compliance with the annual notification requirements. To date, TDOE has only received documentation from 120 LEAs that reaffirm their compliance with AHERA requirements. The available data only shows that the annual inspections have been completed and that the LEAs in compliance have conducted annual inspections since 2010.

Reporting to EPA

19. What information related to AHERA and asbestos hazards in schools does your State report to the EPA? How frequently does this reporting occur?

TN Response: TDEC's AHERA grant agreement with EPA requires TDEC to submit inspection reports within 30 days of the date that the following work plan inspections are completed:

1. Inspect LEAs for compliance under the AHERA regulations that require local educational agencies of public, charter and private non-profit elementary and secondary schools to:
 - a. inspect their buildings for asbestos-containing building materials
 - b. develop all phases of the management plans inclusive of but not limited to annual teacher, student, parent notifications, maintain proper records and documentation of response actions, provide timely training of custodial and maintenance staff
 - c. use of accredited persons conducting AHERA defined tasks and etc.;
2. Focus on public LEAs in counties with an Environmental Justice ranking of four or greater that have never been inspected for AHERA compliance and provide compliance assistance to public LEAs in these areas, to encourage proper handling of asbestos in these schools, and reduce the potential for asbestos exposure of children from lower-income families who already typically bear a higher burden of illness & health issues overall than their peers from more affluent homes;
3. Conduct on-site inspection in schools where asbestos abatement actions are actively occurring. The number of inspections conducted for this objective is contingent on the number of NESHAP notifications received in a timely manner from state and local air boards for response actions occurring in schools;

4. And conduct inspections of asbestos accredited training courses presented in Tennessee.

In addition, TDEC is required to submit six month grant project reports detailing accomplishments versus the commitments in the grant work plan agreement.

20. Does your State receive grant funding to assist in the enforcement of AHERA (e.g., funding to conduct inspections)? If so, please describe the funding amount, funding period, and reporting requirements.

TN Response: All of the activities performed by TDEC that are described above are conducted under an AHERA grant with EPA. TDEC’s grants typically run for a two year period and require a 25% match that comes from the MAAP accreditation fees. TDEC adheres to the reporting requirements outlined in #19 above. The following table shows the level of EPA funding TDEC received since 2010 to conduct enforcement monitoring inspections.

| State of Tennessee Annual Costs for AHERA Implementation and Enforcement from 10/1/2010 to 6/30/2015 | | | |
|---|---|--|----------------------|
| Fiscal Year | EPA Federal Funding to TDEC FOR AHERA Compliance/Tips/Complaints/Enforcement | TDEC Toxic Substances Program Grant Match | Yearly Total |
| 2010-2011 | \$ 81,745.00 | \$ 70,630.50 | \$ 152,375.50 |
| 2011-2013 | \$ 165,125.00 | \$ 156,050.00 | \$ 321,175.00 |
| 2013-2014 | \$ 78,425.00 | \$ 26,142.00 | \$ 104,567.00 |
| 2014-2015 | \$ 67,000.00 | \$ 22,336.00 | \$ 89,336.00 |
| GRAND TOTALS | \$ 392,295.00 | \$ 275,158.50 | \$ 667,453.50 |

APPENDIX 4

Tennessee Department of Education
AHERA Compliance Templates

STATE OF TENNESSEE

AHERA MANAGEMENT PLAN

GUIDE DOCUMENTS

INTRODUCTION

- ◆ Asbestos Hazard Emergency Response Act (AHERA) is a Federal Law that was signed into effect in 1987.
- ◆ All non-profit public and private K-12 schools must be inspected by an AHERA accredited Inspector and have an asbestos Management Plan developed by an AHERA accredited Management Planner.
- ◆ The completion of this package will serve as an AHERA Management Plan. The Management Plan **MUST** be completed on the attached State forms:
- ◆ Each school in a Local Educational Authority (LEA) must have an individual AHERA Management Plan:
- ◆ This Original Management Plan must be kept on file in the school. A copy of each school's Management Plan must be kept at the Main Office of the LEA. A copy of the Management Plan must be submitted to the State for review.
- ◆ Failure to comply with the AHERA regulations could result in civil and criminal penalties of up to \$5,000 per day per penalty.

STATE OF TENNESSEE AHERA MANAGEMENT PLAN GUIDE DOCUMENTS

GENERAL INSTRUCTIONS

PURPOSE: All Local Education Agencies (LEAs), both public and private, shall use the attached documents for submittal of the AHERA Management Plan to the State of Tennessee. A LEA can consist of a single building, multiple buildings on a campus, or several schools making up a school system.

PRESENTATION: All sheets **MUST** be typed. All sheets shall be 8 ½" x 11" except for the floor plan sheets which may be 11" x 17" for doubled in-fold. Place a colored sheet of paper between each building packet within the school information section for easy separation. The Management Plan must be bound along the Left side with a 19-ring plastic comb binder. **THREE RING BINDERS WILL NOT BE ACCEPTED.**

DISTRIBUTION: **THE ORIGINAL MANAGEMENT PLAN MUST BE KEPT ON FILE IN THE MAIN OFFICE OF EACH SCHOOL.** If a LEA has more than one school, the Management Plan information for all of the schools must be kept on file in the LEA central office.

A copy of the Management Plan must be mailed to:

TENNESSEE DEPARTMENT OF EDUCATION
DIVISION OF POLICY AND LEGISLATION
9th FLOOR, ANDREW JOHNSON TOWER
710 JAMES ROBERTSON PARKWAY
NASHVILLE, TN 37243-0375

ATTENTION: Deborah Boshears-Gunter
Phone: (615) 532-1681
Email: Deborah.Gunter@tn.gov

If there are any questions regarding the Management Plan, contact Deborah Boshears-Gunter, Executive Director at (615) 532-1681.

PREPARATION: Complete forms as instructed below and assemble in order given.

A. TRANSMITTAL SHEET, TAHERA 1.0 (2/97)

Indicate with an "X" that the submission is a "MANAGEMENT PLAN". If this is the first time you are submitting the package to the State, put the "X" in the "ORIGINAL SUBMISSION" column. If you are submitting corrections to a package already on file with the State put the "X" in the "CORRECTION/DEFICIENCY SUBMISSION" column.

Fill in the LEA Name, LEA # (if known), Address, Designated Person, Telephone Number, and Date of Submission.

B. COVER SHEET, TAHERA 2.0 (2/97)

Fill in the Management Planner's Name, and Management Planning Firm or LEA Name Address and Telephone Number and AHERA Training information.

Fill in the Designated Person's Name, Address, Telephone number and AHERA Training information.

Fill in the LEA Name, LEA No. (if known), Address, Superintendent's Name, and date of report submission.

This form must be signed and dated by the Management Planner, LEA Designated Person and the LEA Superintendent (headmaster or principal).

C. ASSURANCES, TAHERA 3.0 (2/97)

Pursuant to Section 763.84 and Section 763.93 of the EPA Asbestos in Schools Regulation (40 CFR Part 763), each Management Plan must contain a true and correct statement, signed by the LEA Designated Person and Superintendent, that certifies that all general LEA responsibilities have been met. This form is provided to assist the LEA in complying with this portion of AHERA.

Fill the school year, LEA Name, and LEA # (if known). **This form must be signed and dated by the LEA Designated Person and the Superintendent (headmaster or principal).**

D. TABLE OF CONTENTS, TAHERA 4.0 (2/97)

After completing the Management Plan develop a Table of Contents using the format indicated on the enclosed example.

Fill in the LEA Name and LEA # (if known).

Note: Repeat the listings for Section G, Subsections a – j for each content listing.

Fill in page numbers and TAHERA form numbers associated with each content listing.

E. SCHOOL BUILDING LIST, TAHERA 5.0 (2/97)

Fill in the LEA Name, LEA # (if known). List all owned or leased schools and separate buildings in the LEA, and school numbers if assigned by Department of Education. Indicate the school or building

name, and address. Indicate with an "X" that the school has friable (F), Non-friable (NF) asbestos containing building material (ACBM) or No ACBM.

NOTE: The LEA includes any buildings that are used for associated educational purposes such as Administration Building, Maintenance Shop, Storage Buildings, Bus Barn, Dormitories, etc.

F. SCHOOL INFORMATION FORM, TAHERA 6.1 (2/97)

Use this form for facilities constructed before October 12, 1998.

A TAHERA 6.1 Form must be completed for each school related building in your LEA.

Indicate School Building name and number (if known) at the top of form.

BUILDING STATISTICS: Indicate the actual date built, school/building name, use of building and square footage for that school/building. Indicate an actual date of original construction, additions, or renovations to each school/building.

STRUCTURAL SYSTEMS: Indicate with an "X" the type of walls, floors, roof, and foundation for the school/building. If any other type of material was used please explain.

MECHANICAL SYSTEMS: Indicate with an "X" the type of heating and cooling system used in the school/building. If any other type of system is used please explain.

ARCHITECTURAL FINISHES: Indicate with an "X" the type of ceiling, flooring and wall finishes used in the school/building. If any other type of material was used please explain.

SUMMARY OF DOCUMENTS REVIEWED: Indicate with an "X" what documents were reviewed in association with the inspection of this school/building.

INSPECTION INFORMATION: Indicate the date of Inspection, Inspection Team Members, Accreditation Number/State, and Affiliation. This form must be signed by all Inspection Team Members.

Indicate the LEA Name, LEA No (if know), and the date of submission.

**G. SCHOOL INFORMATION/CERTIFICATION FORM, TAHERA 6.1a
(2/97) (FOR ASBESTOS FREE SCHOOL)**

This form may be used to certify that the new school or school building constructed after October 12, 1983 does not contain any ACBM.

A TAHERA 6.1A form must be completed for each Asbestos Free School/Building in your LEA.

Indicate the LEA Name, and LEA #(if known).

BUILDING STATISTICS: Indicate the actual date built, school/building name, use of building and square footage for that school/building. Indicate an actual date of original construction, additions, or renovations to each school/building.

STRUCTURAL SYSTEMS: Indicate with an "X" the type of walls, floors, roof, and foundation for the school/building. If any other type of material was used please explain.

MECHANICAL SYSTEMS: Indicate with an "X" the type of heating and cooling system used in the school/building. If any other type of system is used please explain.

ARCHITECTURAL FINISHES: Indicate with an "X" the type of ceiling, flooring and wall finishes used in the school/building. If any other type of material was used please explain.

SUMMARY OF DOCUMENTS REVIEWED: Indicate with an "X" what documents was used to determine the school/building is asbestos free.

Indicate the date of building occupancy.

The School Information/Certification Form MUST be signed by an architect, project engineer, or an AHERA accredited inspector. Indicate registration or accreditation number and attach a copy of the inspector's certification (if applicable).

H. HOMOGENEOUS AREA SUMMARY, TAHERA 6.2 (2/97) (Must be completed by an AHERA accredited Inspector)

Indicate LEA Name, LEA # (if known), School Name, and School # (if known).

— For each Homogeneous Area (H.A) identified in the school assign a separate homogeneous number and fill in the requested identification and assessment information, and provide total square or linear footage or other quantities and units of materials.

I. HOMOGENEOUS AREA DRAWING, TAHERA 6.3 (2/97)

Indicate LEA Name, and LEA # (if known), School Name, and School # (if known).

Include one (1) drawing for each Homogeneous Area (HA). Identify through cross-hatching or draw in each Homogeneous Area. Indicate the location and sample number of all samples collected.

Drawings shall be of a convenient scale for each of understanding. These sheets may be enlarged to 11 x 17 and bound sideways into the Management Plan.

Indicate scale or provide dimensions on all Drawings. Indicate direction of North on all Drawings. Provide a Legend with all Drawings.

J. RESPONSE ACTIONS, TAHERA 6.4 (2/97) (Must be completed by an AHERA accredited Management Planner and the LEA).

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

For each ACBM homogeneous area previously identified, indicate the Management Planner's recommended Response Action, the LEAs selected Response Action

and the associated schedule. (If Response Action h "other" is selected, further explanation is required.)

Further explanation must be given when LEAs selected Response Action is different from the Management Planner's Recommended Response Action.

Indicate the Management Planner's method for Response Action selection (i.e., Particular Decision Tree, page number of AHERA regulation) and date of submittal.

K. IMPLEMENTATION OF RESPONSE ACTIONS, TAHERA 6.5 (2/97) (Must be completed by an AHERA accredited Management Planner.)

Indicate LEA Name, LEA # (if known), School Name, and School # (if known).

A copy of this form must be completed for each Response Action that the LEA will implement at the school. Copies for additional homogeneous areas should be placed directly behind this form.

Resource dollars may include anticipated funding, manpower, equipment, and training required. If no resources are required, please indicate "NONE".

Indicate the date of submittal.

L. FOLLOW-UP ACTIONS, TAHERA 6.6 (2/97)

Indicate the LEA Name, LEA # (if known).

Indicate the "DATE OF IMPLEMENTATION OF THE MANAGEMENT PLAN".

Provide the LEAs Plan for Notification of the Parents, Teachers, Students and LEA employees. Indicate the date of implementation of the Management Plan. The date of implementation should be the date of occupancy of the school/building. Attach a DATED copy of the actual Notification.

M. DRAWING OF ACBM TO REMAIN, TAHERA 6.7 (2/97)

Indicate the LEA Name, LEA # (if known), School Name and School # (if known).

Include at least one (1) drawing for each school, detailing the type and location of any ACBM to remain in the building following implementation of the Response Actions. Cross hatch or draw in Homogeneous Areas.

Drawings shall be of a convenient scale for ease of understanding. These sheets may be enlarged to 11 x 17 and bound sideways into the Management Plan.

Indicate scale or provide dimensions on all Drawings. Indicate direction of North on all Drawings. Provide a Legend for all Drawings.

**N. OPERATIONS AND MAINTENANCE PLAN, TAHERA 6.8 (2/97)
(Must be completed by an AHJRA accredited Management Planner).**

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

For each school, outline the site-specific Operations and Maintenance (O & M) plan on this form.

O. BULK SAMPLE SUMMARY TAHERA 6.9 (2/97) (Must be completed by an AHERA accredited Inspector/Management Planner.)

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

List, for each sample collected, the Inspector's sample number assigned in the field, a description of the material, sample location, sample number, type and percentage of asbestos.

THIS FORM MUST BE SIGNED BY THE INSPECTOR AND INDICATE THE DATE OF SUBMITTAL.

P. OPERATIONS AND MAINTENANCE PROCEDURES, TAHERA 7.0 (2/97) (Must be completed by an AHERA accredited Management Planner.)

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

For all buildings within this Management Plan describe elements which will be included in the LEAs Operations and Maintenance Program such as Worker Protection, Initial and additional cleaning program recommendations, building occupant protection (access control, signs, control of air movement, work practices, area cleaning, disposal methods), design and performance of other than small-scale, short-duration maintenance activities, and activities associated with minor and major fiber release episodes. The program shall also discuss methods of protecting non-friable material from becoming friable due to damage caused by misuse, maintenance, or construction projects.

Indicate the page number and date form has been completed and the date of submittal.

Q. LABORATORY ACCREDITATION STATEMENT, TAHERA 8.0 (2/97) (Must be completed by AHERA accredited Laboratory.)

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

The required laboratory information **MUST** be completed and the form must be signed by the Laboratory Manager.

The following documents **MUST** be submitted by the Laboratory:

BULK SAMPLE ANALYSIS: Indicate LEA Name, LEA # (if known), School Name, and School # (if known).

Include a Laboratory Analysis Sheet, signed by the analyst for the bulk samples. Initialed Analysis Sheets will not be accepted.

ACCREDITATION CERTIFICATES: Submit certificates for the Laboratory.

NOTE: The Management Planner is required to submit Certificates for all Inspectors, Management Planners. Include copies of the original and current Training Certificates.

R. PERIODIC SURVEILLANCE REPORT, TAHERA 9.0 (2/97) (May be filled out by LEA Designated Person).

This form can be used for Two- (2) Periodic Surveillance Inspections per School Year (Fall Semester/Spring Semester).

This report shall be completed and placed in the Management Plan from the Date of Implementation, as indicated on the TAHERA 6.6 form.

Indicate the LEA Name, LEA # (if known), School Name, School # (if known), and Building Name (if different from the LEA).

Indicate the Date of Inspection.

Indicate each asbestos containing Homogeneous Area (HA#), description of ACBM, area inspected and any changes in the condition of the material since the last surveillance.

If all of a Homogeneous Area has been removed, since the last inspection, indicate the date of removal.

The Surveillance Inspector must sign the form.

S. ABATEMENT ACTION, TAHERA 10.0 (2/97)

This form must be used to document all abatements which have (or will) occur at each school in the LEA.

Complete a TAHERA 10.0 form for each abatement project.

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

Provide a written description of the abatement action. Include the type of each material, amount of material removed, location of project (example: Boiler Room Basement, etc.), and methods used in removal.

Indicate the start and completion dates of the abatement project.

Indicate the Name, Address and accreditation number of the Abatement Designer.

Indicate the Name, Address and accreditation number for the Air Monitoring Laboratory.

Indicate the Name and Address for the Waste Disposal site.

Attach a copy of the FINAL TEM CLEARANCE OF THE AIR MONITORING REPORT that indicates all of the information requested in Item # 6 of the TAHERA 10.0 form.

Indicate the date of submission.

T. EMPLOYEE TRAINING FORM, TAHERA 11.0 (2/97)

Training must be provided for all custodial and/or maintenance employees. The two-hour Training must be administered at the beginning of employment with the LEA. AHERA requirements do not require refresher courses for the Awareness Training.

Maintenance Workers, who perform small-scale short-duration work that might disturb asbestos containing building materials, must have an addition 14-hour asbestos training course.

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

Complete this form for each training program instituted at the LEA. Fill in all items. This form shall be signed by the LEA Designated Person and filed in the Management Plan. Indicate the date of submission.

U. OPERATIONS AND MAINTENANCE ACTIVITY, TAHERA 12.0 (2/97)

Complete this form, for each Operations and Maintenance (O & M) activity for each school.

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

The form must be signed by the LEA Designated Person.

V. CLEANING RECORD, TAHERA 13.0 (2/97)

Complete this form for initial and subsequent cleaning pursuant to 40 CFR 763.91 (c).

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

This form must be signed by the Designated Person and filed in the Management Plan.

W. FIBER RELEASE EPISODE, TAHERA 14.0 (2/97)

Complete this form for each fiber release episode pursuant to 40 CFR 763.91 (f).

Indicate the LEA Name, LEA # (if known), School Name, and School # (if known).

The form must be signed by the Designated Person and filed in the Management Plan.

Indicate the date of submission.

X. THREE YEAR REINSPECTION, TAHERA 16.0 (2/97) (Must be completed by an AHERA accredited Inspector/Management Planner).

This form must be completed once every 3 years from the Date of Implementation of the Management Plan.

Indicate LEA Name and LEA Number (if known) at top of form.

Indicate School Building Name and Number at top of form.

Indicate the Date of Implementation and the inspection date of this Three-Year Re-inspection.

Fill in the Homogeneous Area Number, Current Quantity and Material Description for each and every asbestos containing homogeneous area previously recorded (this includes both FRIABLE and NONFRIABLE asbestos containing building materials). LIST ONLY ONE HOMOGENEOUS AREA PER COLUMN.

Fill in the LAST 3 YEAR and CURRENT columns for each Homogeneous Area.

Fill in the Assessment and Response Actions.

The Inspector and Management Planner must sign this form.

Copies of the original and Current Training Certificates for the Inspector and Management Planner must be submitted with the Three-Year Re-inspection.

COVER SHEET

No person or firm shall offer to perform or be hired to perform as professionals the services of inspection, preparation of management plans, designing of response actions, or supervising of response actions except as properly accredited under the provisions of the Federal Regulations Title 40, Part 763 (AHERA). The U.S. Environmental Protection Agency and the State of Tennessee recommended those persons or firms performing as professionals are registered under the registration laws of the State of Tennessee or a state, which has reciprocity with the State of Tennessee. Such professionals should be independent practitioners and should have no financial or other interest in contractors, subcontractors, manufacturers, or jobbers under their jurisdiction where direct conflict of interest could occur, except as permitted.

An employee of a State or local public or private education agency (LEA) may provide the services of inspection or preparation of the management plans for their respective LEAs facilities, provided that person is properly accredited under the AHERA laws and regulations.

The signatures hereon attest to the above statement and certify that it is the intent of the signatories to carry out all other provisions of the AHERA laws and regulations.

This AHERA Management Plan was developed and has been submitted pursuant to the Asbestos Hazard Emergency Response Act of 1986, Public Law 99-519; and the United States Environment Protection Agency Rule: Asbestos Containing Material in Schools, 40 CFR Part 763, Subpart E.; and the undersigned does hereby certify that the Local Education Agency (LEA) indicated below has and will ensure the following:

1. The activities of any persons who perform inspections, re-inspections, and periodic surveillance, develop and update management plans, and develop and implement response actions, including operations and maintenance, are carried out in accordance with Part 763 and other Federal and State regulations and requirements.
2. All custodial and maintenance employees are properly trained as required in Part 763 and all other applicable Federal and State regulations (e.g., the Occupational Safety and Health Administration Asbestos Standard for Construction, the EPA Worker Protection Rule or applicable State regulations).
3. All workers and building occupants, and their legal guardians, are informed at least once each school year about inspections, response actions, and post-response action activities, including periodic re-inspection and surveillance activities, that are planned or in progress.
4. All short-term workers (e.g., telephone repair workers, utility workers, or exterminators) who may come in contact with asbestos in a school are provided information regarding the locations of asbestos-containing materials (ACM).
5. All warning labels are posted in accordance with Section 763.95.
6. All management plans are available for inspection and notification of such availability has been provided as specified in the AHERA regulations under Paragraph 763.93 (g).
7. The undersigned person designated by the LEA pursuant to Paragraph 763.84 (g) (1) has received adequate training as stipulated in Paragraph 763.84 (g) (2).
8. The LEA has and will consider whether any conflict of interest may arise from the interrelationship between the Management Planner and other accredited persons performing AHERA activities.

FOLLOW-UP ACTIONS

1. **NOTIFICATION PLAN:** Describe method of Annual/Yearly Notification to Parents, Students, and LEA Employees. Suggested types of Notification are a Note in your Student Handbook, PTA Meeting Minutes, Newspaper Article, or Student take-home Flyer.

The Notification should include the location and available viewing times of the Management Plan along with the name of the LEA Designated Person. It is also the LEA's responsibility to notify Parents, Students and LEA Employees of any inspections, and/or abatements of Asbestos Containing Building Materials.

2. **PERIODIC SURVEILLANCE PLAN:** The LEA shall perform Periodic Surveillance at least every six- (6) months from the date of the Implementation of the Management Plan. (Report surveillance on TAHERA 9.0 Form).

3. **REINSPECTION PLAN:** The requirements of the Re-inspection Plan are described in Paragraph 763.85(b) of AHERA and shall include an inspection by an AHERA accredited inspector. The inspection of all friable and nonfriable, known or assumed ACBM must be conducted every 3 years from the Implementation Date. The Inspector is REQUIRED to visually inspect all known or assumed ACBM, touch the material to determine any change in condition; identify homogeneous areas where material has become friable since the last inspection; reassess areas where condition of material has changed; and verify quantities of known or assumed ACBM. On the TAHERA 16.0 the Inspector is required to record dates of re-inspection; any change in material condition; names and signatures of persons making the re-inspection; accreditation numbers and the State where accreditation was received.

At the option of the LEA, additional sampling can be performed by the Inspector to determine if previously assumed of ACBM's contain asbestos. If additional sampling is performed, the exact sample locations and the manner used to determine sample locations, laboratory results and a laboratory accreditation statement must be indicated on the appropriate TAHERA forms. The Original Management Plan must be revised to reflect the above information.

NOTE: An AHERA accredited Management Planner MUST complete the RE-inspection Package.

4. **YEARLY PROGRESS REPORTS:** Yearly Progress Reports are to be submitted to the State no later than July 9 of each year. This report shall include a Transmittal Sheet (TAHERA 1.0), Assurances Form (TAHERA 3.0), Periodic Surveillance Reports for both 6-month periods (TAHERA 9.0), and a DATED Annual Notification to parents, teachers, and LEA employees.
